Python Java C / C++ JavaScript HTML CSS React.js Node.js SQL & MySQL ASP.NET Android Studio MySQL Git & GitHub Data Structures Algorithms Linux / Shell REST APIs Agile / Scrum	I'm Jeeah Mir, a third-year B.Sc. Computer Science student at Ramnarain Ruia Autonomous College and an aspiring full-stack developer. I have hands-on experience in Python, Java, JavaScript, HTML, CSS, PHP, MySQL, and PostgreSQL, with projects across web development, AI, cybersecurity, and UI/UX. I enjoy building practical, user-focused solutions and continuously expanding my technical skills through projects and learning. As a national-level basketball player, I bring strong discipline, teamwork, adaptability, communication, and time-management skills. I'm seeking an internship where I can apply my skills, learn from industry professionals, and contribute to meaningful technology projects.	
	Experience & Projects	
Languages	Web Developer Intern InAmigos Foundation (IAF) May 2026 – June 2026 Remote Worked on front-end development and program creation for web-based initiatives. Gained practical experience in developing and improving web interfaces and implementing functional website features. Skills: Front-End Development, Program Creation, Web Development	
	FINAL YEAR PROJECT VeriSafe AI — Think Before You Click AI-Powered Fraud & Scam Detection Platform Developed an AI-powered fraud detection platform designed to identify online scams, phishing attempts, malicious links, fake payment proofs, and fraudulent transactions. Enables users to analyse WhatsApp messages, emails, website links, payment screenshots, and transaction details for potential threats. Generates a risk score, confidence level, threat category, explanation of warning signs, and personalized safety recommendations instead of simply showing a safe/unsafe result. Includes scan history and report storage to help users track suspicious activity over time. Designed a modern cybersecurity-focused interface with an emphasis on usability, accessibility, and user trust.
